A G R E E M E N T

This Agreement is entered into effective the 1st day of January, 2004, between the School District of the City of Detroit (hereinafter referred to as the "District") and Local 345, Michigan District Council 25 of the American Federation of State, County and Municipal Employees AFL-CIO (hereinafter collectively referred to as the "Union"). The parties agree to extend their current collective bargaining agreement scheduled to expire on December 31, 2016, in consideration of the modifications set forth herein.

ARTICLE 1 – PURPOSE AND INTENT

The general purpose of this Agreement is to set forth terms and conditions of employment, and to promote orderly and peaceful relations for the mutual interest of the school children of the City of Detroit, the District, the employees, and the Union.

The parties recognize that the interest of the community and the job security of the employees depend upon the District's success in establishing and maintaining proper service to the community.

To these ends, the District and the Union encourage, to the fullest degree, friendly and cooperative relations between the respective representatives of the parties at all levels and among all employees.

ARTICLE 2 – NON-DISCRIMINATION CLAUSE

- A. There shall be no discrimination against any person in employment or in Union membership because of race, sex, religion, color, creed or national origin. The parties will work together to assure equal employment opportunities, and to establish policies and regulations that will insure such equality of opportunity, consideration and treatment of all persons employed by the District in all phases of the employment process.
- B. The District and the Union are committed to the principle of equal pay for equal work and agree that no provision of this Agreement shall be interpreted in such a manner as to preclude persons of any sex from the equal opportunity to be considered, selected and employed in any position in the bargaining unit because of the sex of such person.

ARTICLE 3 – RECOGNITION – EMPLOYEES COVERED

Pursuant to and in accordance with all applicable provisions of Act 379 of the Public Acts of 1965, the District does hereby recognize the Union as the exclusive representative for the purpose of collective bargaining in respect to rates of pay, wages, hours of

employment, and other conditions of employment for the term of this Agreement of all employees of the District in the job classifications described in Appendix "A".

ARTICLE 4 – EMPOWERMENT

The Union and the District are committed to creating empowered schools which assure maximum choice, success and rewards for students, parents and all employees.

In this regard, an empowered school shall have the authority to develop policy that affects terms or conditions of employment which may deviate from contract provisions governing non-empowered schools; provided that such changes are approved by the Local School Empowerment Council (LSEC) and a majority of the affected employees in the empowered school.

The bargaining representative of the employees involved may request negotiations with the Office of Labor Contract Management regarding the changes made. Should the parties be unable to reach an agreement, either party may petition MERC to resolve the impasse.

- A. No bargaining unit member in an empowered school will suffer a loss of employment as a result of an action by an empowered school involving purchasing outside services.
- B. No empowered school will be permitted to pay a bargaining unit employee at less than the negotiated pay rate and fringe benefit level in the master contract.
- C. Persons applying for promotions will indicate whether they desire to be placed in a regular school, empowered school or both. An empowered school needing to fill a vacancy will review the register and interview the candidates on the list who has indicated a preference to go to an empowered school. Persons who remain on the register will be selected for a vacancy in a non-empowered school, in accordance with Article XX.
- D. The Union and the District are committed to building a learning organization that will increase student achievement. The implementation of site-based management will give schools greater responsibility, authority, and accountability for making decisions that will improve educational services to students.

Site-based management is a local school governance structure that focuses on increasing student achievement by utilizing a collaborative decision-making process that involves all school community stakeholders. School community stakeholders include students, certified and uncertified staff, community, parents, and administrators.

With respect to site-based management, the principal or building administrator will be cognizant of the workloads of bargaining unit members. In cases where the propriety or workload of unit members is unusually high, the Union may request a special conference with management to resolve the matter.

ARTICLE 5 – WORKING RULES

The District may establish reasonable working rules pursuant to which all employees in the unit shall perform their assigned functions. The Union shall be notified in writing and consulted regarding said working rules prior to their effective date and prior to any change therein.

Pending formulation of any new work rules in the manner set forth above, the overtime policy and hours of work including lunch periods in various classifications, shall be continued as presently administered, and/or as changed by any supplemental agreements.

There shall not be any arbitrary change in hours solely to avoid the payment of overtime. There shall be no conflict between the work rules and the terms of this Agreement.

3. If at any time prior to or during the District's representation and indemnification of the employee, pursuant to the District's investigation and reasonable determination, it is determined that the employee's actions were not in accord with District policy in carrying out the functions that gave rise to the legal action, the District shall withdraw representation and cease its obligation to indemnify.
 4. If at any time prior to or during the District's representation and indemnification of the employee, pursuant to the District's investigation and reasonable determination, it is determined that the employee's actions were illegal or criminal in nature, the District shall withdraw representation and cease its obligation to indemnify.
- B. The District will not provide legal representation or indemnification for the employee if he/she has been charged with criminal or illegal activity arising from the employee's actions during the course of his/her employment.
 - C. As a prerequisite to receiving legal defense/indemnification, an employee who requests legal defense or indemnification pursuant to this Article, shall cooperate in the investigation and defense of his/her case. The employee's failure to cooperate could result in denying or withdrawing the defense and indemnification.
 - D. The provisions of this Article are not intended to prevent an employee from retaining legal representation other than that provided by the District. If, however, an employee elects to obtain legal representation outside of the District, the employee is fully responsible for any and all costs, legal fees, interest or judgments which result from the legal process.
 - E. Decisions by the District with respect to the provision of legal representation and indemnification to individual employees shall not be subject to the grievance procedure.

ARTICLE 48 – CHANGE AND TERMINATION

This Agreement shall be effective upon ratification by the parties and approved by the Transition Manager and Financial Review Commission, and shall continue in effect until the initial elected Detroit Public Schools Community District school board takes office, and thereafter until June 30, 2017, subject to the limitations in MCL 380.12(b)(3).

Statement of Commitment Community Schools in Detroit

The AFSCME, Local 345 the City of Detroit, and the Detroit Public Schools Community District commit to exploring the expansion of community schools throughout DPSCD. Our goal is to bring together community resources, including public agencies, nonprofit organization, higher education institutions, faith-based organizations, private philanthropy and the business community, among other. The purpose of this statement is to provide a basic framework to support the development and implementation of community schools in Detroit. By moving beyond the normal confines of the school and partnering with local stakeholders, community schools provide real solutions to the unique problems of the students and families they serve, and are another major step forward in reclaiming the promise of public education and can be central to the rebirth of the City of Detroit.

The Union, the school district and the city are committed to working together to identify a promising neighborhood that would provide an ideal location to pilot a system of community schools. In this way, the community schools would serve as catalysts and hubs for the revitalization of the neighborhood. The union, school district and city would work together to determine the best way to collaborate with community stakeholders to create sustainable community schools in Detroit. And with the success of pilot community schools, the model could be replicated to expand to a city-wide system of community schools in neighborhoods around Detroit.

Community schools can be the new heart of the community, itself, and can help promote stable, healthy neighborhoods. What's more, they could create better conditions for both teaching and learning, where teachers, school staff, families, community members and service providers can come together in coordinated and results-focused partnerships, to meet the needs of students and families. **This isn't just another program: It's a paradigm shift in the way we think about schools that goes well beyond just providing supports and services for students.**

Detroit Community Schools Initiative would build on the community's strengths, focusing on addressing the academic, physical, social and emotional needs of students and fostering the active involvement of families. The following components should be included in the basic framework.

- **A city-level or systems-level leadership team.** Our union, the district and the city would work collaboratively to establish a city-wide community schools "table," to create an overall vision; create city-wide policy; align public/private resources to provide school site technical assistance; and create messaging.
- **Site leadership team – the local site governance structure drives school-neighborhood level efforts.** Decision-making should be transparent and be

made by conducting needs and assessments with all stakeholders, including site-level union representatives, teachers, school staff and families.

- **Community schools would provide more than one type of service to students and the community**
While services would be unique to the needs of the schools and community, they could include:
Academic services, medical services, adult education classes, early childhood education, career and technical education, and restorative practices.
- **A site resource coordinator would ensure that service and community providers are working together**, focusing on the same set of results to provide students with the service most attuned to their social and emotional needs and building on classroom instruction.
- **Through union and district-led professional learning, community schools could better support and enable a strong curriculum.** Strong ties with the community lead to more partnerships and programs outside the classroom.
- **Community schools would support a shared vision and mission with the community and would be results-driven.** All stakeholders-AFSCME, Local 345, DPSCD, community partners, families, school staff, and the city – share responsibility for accountability and continuous improvement. If we work from the premise that all children should be able to achieve academic success regardless of their neighborhood or circumstances, then there should be shared accountability for these outcomes by all who are involved in students' lives.

This Agreement conveys verified additional assignments.
4. This Agreement has no precedential effect.

The continuance of the School-Based Performance Bonus shall be contingent upon the securing of the funds for the entire school year.

The District shall identify the criteria and benchmarks for establishing school-based performance pay for bargaining unit members. 3. Selected schools are subject to an annual review of predetermined criteria using supportive evidence and data for each school. A data-based rationale must be provided if a school is not renewed unless the non-renewal is due to lack of identified/available funding.

4. Bonus packages shall be afforded to each school selected. The distribution shall be made one of two ways: 1) utilizing the District's predetermined cash distribution matrix or 2) the School Leadership Team via the SDM shall determine an alternative.
5. Bonus pay shall be paid not later than the end of the first semester of the following school year.
